Report of CAC members voting No:

CAC Member Anderson: Had opportunities for ag related industries on the south side (I-80 at Midway) and could have supported that designation.

CAC Members Gatz & Bryd: It's important to have some ag related industries along the highway to support the farmers who are producing products that need to be transported. Repeated a number of times - farmers are looking for that kind of support from the County in this General Plan process.

CAC Member Clement: The economic report indicates we should try to do what we can to make sure that the agricultural industry has support industries and freeway access. The commercial-agricultural designation is acceptable. Don't think it needs to be changed to a highway commercial, because you can only have so many Dennys down a freeway before they get a little passé.

CAC Member Rapanich: Agrees with the points made by the other four no vote speakers
